

ACEC Indiana is your source for continuing education

ACEC Indiana is pleased to announce the launch of its Indiana Rules & Statutes course- now available online for professional engineers for an affordable \$25 fee.

To register for ACEC Indiana's new continuing education site and to take this first course, go online to www.acecindiana.org/continuingeducation.

Continuing Education Rules for Professional Engineers took effect last August. This continuing education requirement first applies to the biennium of Aug. 1, 2010, through July 31, 2012, and therefore will apply to the July 31, 2012, renewal.

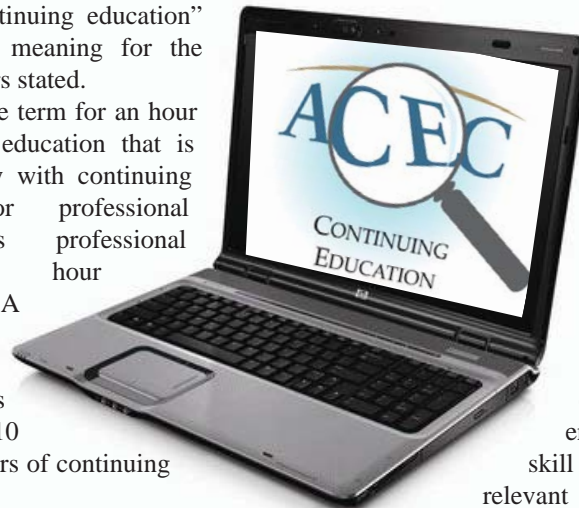

- Except for holders of an inactive certificate, during each biennium a professional engineer shall complete thirty (30) hours of continuing education that meets the requirements of this rule and IC 25-1-4 in order to renew his or her professional engineer registration.
- As used in this rule, "hour of continuing education" means at least fifty (50) minutes of instruction or course contact time.

"Hours of continuing education" has the same meaning for the number of hours stated.

An alternate term for an hour of continuing education that is used nationally with continuing education for professional engineers is professional development or PDH. (A Continuing Education Unit (CEU) is equivalent to 10 PDH or 10 hours of continuing education.)

- At least one (1) hour of the continuing education required in each biennium shall be in ethics applicable to the practice of professional engineering.
- At least one (1) hour of the continuing education required in each biennium shall be in Indiana statutes and rules applicable to the practice of professional engineering.

ACEC Indiana also has the capability to approve courses that your firm offers in-house,

since the rules state that "Based on IC 25-1-4-0.5 and as used in this rule, "continuing education" means an orderly process of instruction that is: (1) approved by an approved organization (as defined in IC 25-1-4-0.2) or the board; and (2) designed to directly enhance a professional engineer's knowledge and skill in providing services relevant to the practice of engineering.

For information on how to get your firm's courses approved, contact Colleen at cmerkel@acecindiana.org.

A listing of the Continuing Education Rules is available at: <http://www.in.gov/legislative/iac/20100818-IR-864090788FRA.xml.pdf> Contact Colleen at ACEC Indiana with questions at (317) 637-3563 or cmerkel@acecindiana.org.
